Profile Summary

As a passionate developer, I have a diverse skill set which includes expertise in myriads of programming languages, such as JavaScript, and C++. While I have experience working with these languages, my primary focus is on front-end development, which includes HTML, CSS, and JavaScript, as well as popular frameworks like React, Next.js, and vue.js. Furthermore, I also possess a strong background in UI design, ensuring that the websites and applications I produce are visually appealing, user-friendly, and accessible on a diversity of devices. Furthermore, I am adept at connecting applications with backends via APIs and creating mobile-friendly websites that provide an optimal user experience.

Work Experience

Active4web

05/2023 - 11/2023

Projects

Easy Cli CP (package)

Dec 2023

easy-cli-cp is a cli tool, this is a very small library that helps you create your component files using a terminal (cmd) without having to do it manually.

Feature: developer can create components using CLI

Using: Node.js, commander, inquirer, fs-extra, deep-keys, chalk.

NPM: <https://www.npmjs.com/package/easy-cli-cp>

The Union School

Dec 2023

This system serves the school so that you can control everything related to teachers, students, classes, and schedules, you can add, modify, or delete [classes, schedules, students, teachers]and more.

Feature: The School and Teacher have a Dashboard.

Using: react js, redux toolkit, react-bootstrap, json-server, json- server-auth, react-icons, react-hook-forms, yup validation.

Live: <https://the-union-school.vercel.app>

Miral Hr.

Sep 2023

This HR management system manages all operations of the company's employees, where you can add, modify, or delete [branches, departments, employees, tasks, attendance, salary adjustments], (I am creating a backend to this project to replace json-server).

Feature: The user can deal with most of the features of the HR system.

Using: nextjs, sass, redux query, react hook form, react-hot-toast, react-icons, sweetalert2, react-chart-2, json-server, json-server-auth.

Live: <https://mitral-hr.vercel.app>

Education

Al-Azhar University – faculty of sharia and law

Conscription

Status: Deferred.
